

Freedom Alert Mini

**The freedom they want. The safety they need.
The peace of mind you all deserve.**

Call for help with a push of a button from anywhere there's cell service, thanks to the power of 4G LTE connectivity. Equipped with life-saving features including proprietary fall detection – as well as GPS location services, one's location can be accurately pinpointed when every moment counts. Loved ones will always be equipped with reliable communication and access to the help, even if they're unable to speak.

-  **On-the-go device:** Ensures safety and support at home or when out and about.
-  **Fall detection:** Detects falls and sudden movements, triggering alerts to emergency services – even if the person in need is unable to speak or to use the device.
-  **4G-enabled connection:** Delivers fast and reliable communication during emergencies.
-  **Two-way communication:** Allows for crucial conversation and reassurance in emergencies.
-  **U.S.-based monitoring:** Trained professionals are ready to assist 24/7 during emergency calls and connect to caregivers or 911 when needed.
-  **GPS-location services:** Pinpoints user's exact location for quicker response times.
-  **Battery monitoring:** Device announces battery status and when charging is required.
-  **Free caregiver app:** Monitor location and set boundaries to receive safety alerts.
-  **Compact, comfortable device:** Includes belt clip and lanyard for easy carrying or wearing.
-  **Water-resistant:** Falls are the most common type of injury sustained in the bathroom.
